

X-mas Values IN GOOD FURNITURE!

Always Something New to Show You

We would be glad to have house-keepers drop in on us any day just to look around.

Hardly a day passes but we add something to our stock.

The factories are busy at turning out new things, and of course we get our share.

The other day we received a consignment of RUGS, the most attractive, we think, we ever saw, new in design, beautiful in finish, and sturdy and long-lasting.

Any home that is in need of one of these ought to get supplied now. Prices \$10 up, and worth it.

How You Sleep

Depends quite a bit upon what you sleep on. Ideas about mattresses have changed in recent years, and mattresses have changed to suit.

Now you find some mattresses have names, which doesn't hurt them a bit, but you can also find loads of good mattresses without names.

We have both.

We have them every size and weight and quality.

Every mattress is carefully made along hygienic lines, and is worth every cent we ask for it.

We invite you.

An ad about Iron Bedsteads

There's a lot to tell you about them, more, we are afraid, than we will have room for.

But let's begin by saying that we have a nice large selection to show you.

They are heavily enameled, all sizes. Most of them have attractive ornamentation.

The best ones cost the most, of course, but you can get a bed good enough for anybody, full size, at little cost.

But you had better first let us show you just what our line is like. Then you can quickly make a selection.

Good Furniture Values

Depend firstly and mostly on good Furniture.

There's more likelihood of your paying too little than too much.

If you look at the Furniture question right, you'll decide to spend enough to get all the value that there is going.

If you will let us, we can show you just why our Furniture is worth your attention and your money.

Can let you see for yourself the points where it excels.

Because it DOES excel—there is no doubt in the world about that.

HE SETTLED.

"Do you think," asks Willie Rahrah, "that a college education will pay?"
"No," answers Freddie Rushmore, "but I know my father will."

Too Much for Him.
There was a man in our town
And he was wondrous wise;
He could unscramble scrambled eggs
And uncuss custard pies.
He could unbutton butter, too,
But with all of his skill
There was one thing he could not do—
Unpay a paid gas bill.

Thought of Posterity.
"But why," asks the young husband, before he goes to buy a lot of canned goods to run the table until a new servant may be hired, "but why did you never learn to cook? You had every opportunity."
"I know I did," acknowledged the young wife. "But I always said no son of mine should ever be able to taunt his wife with stories of how his mother could cook things."

The Difference.
"What's the difference between a motor car and a wife?"
"Oh, I give it up. What's the answer?"
"A man who has a motor car always thinks it is the best that may be had."

Only Technically.
"Is your child in bed by eight every evening?"
"Technically, yes. We begin arguing about that time."

Longevity of Belgian Women.
It is interesting to note that longevity among Belgian women is remarkable and that their length of life is superior to that of male Belgians. While Brussels has 65 old men of eighty-five to ninety years of age and only ten male nonagenarians, she possesses no fewer than 184 women whose ages are between eighty-five and ninety, 30 between ninety and ninety-five years and six of over ninety-five years of age.

MISS JESSIE BROWN.

In the Days of the Flowing Bowl.
In the eighteenth century it was regarded as a qualification for a clergyman if he could drink abundantly without showing the effects. The leader of the moderate party of the Church of Scotland in 1751 was Dr. Patrick Cumming, of whom it was admirably written: "He had both learning and sagacity, and a very agreeable conversation, with a constitution able to bear the conviviality of the times."

X-mas Goodies.

Bell Moves a Pillar.

The Church of St. Nicalse, in the city of Rheims, is surrounded with pillars. When a certain bell in the tower is rung the top of one of the pillars always sways to the extent of seven inches on each side, although the base is immovable and the stones are so firmly cemented as to seem like a solid piece of masonry. Notwithstanding that each of the four bells is about the same distance from the trembling pillar, none of the others have the slightest effect upon it.—The Argonaut.

Poor Day for Theater.

A Paris newspaper has been diverting itself with speculations as to the smallest receipts ever taken in at a theater box office. The record at the Comedie Francaise is thought to have been made on May 21, 1871, when the fight against the Commune was under way. On that day the receipts were 54 francs, or \$10.80.

Some time ago an interesting literary find was made in the archives of the Bible house in London.
